

Kyushu University Energy Week 2020
Application Guidelines for Poster Presentations

November, 2019

1. Purpose

Kyushu University Platform of Inter/Transdisciplinary Energy Research Energy Week is engaged in various activities aiming at realizing a one-stop solution for interdisciplinary integration and energy research education to realize a sustainable future energy society.

"Kyushu University Energy Week" is being held every academic year from 2017 as an opportunity to widely inform the local and society about the efforts of this organization. Even in this academic year, "Kyushu University Energy Week 2020" will be held from January 27th (Mon) to 31st (Fri)2020. "Kyushu University Energy Week" is a major event of energy related research which summarizes energy related events at Kyushu University as an international symposium sponsored by this organization and invites many prominent researchers from home and abroad. As one of the related programs, on January 28th (Tue) 2020, Poster Presentations for young researchers, graduate students, and the fourth year undergraduate students who are responsible for the energy research in the future will be held. We are hoping that the poster presentation will become an active deliberation opportunity for discovering and encouraging innovative research. We look forward to your entries from the bottom of our hearts.

2. Details of Application

* This program is related to the following four areas:

Area 1: Energy Technology

Area 2: Energy Systems and Management

Area 3: Environmental Energy Issues

Area 4: Energy Economy, Society and Policy
